Organization Statement

The Baby Signs® Program is a research-based early intervention and communication program designed by child development experts to help babies communicate before they can talk. For over 30 years, Baby Signs® has been used by families, early childhood educators, and healthcare professionals to support language development, reduce frustration, and strengthen bonds between children and caregivers. We provide evidence-based curricula, training, and professional development tools for those working with infants and toddlers in homes, classrooms, and community settings.

Job Description

The Baby Signs® Program is seeking passionate early childhood educators, speech-language pathologists, early interventionists, and other child development professionals to join our network of Independent Certified Instructors (ICIs).

As a Baby Signs® Independent Certified Instructor, you'll receive comprehensive training and support to teach:

- Parent workshops
- Professional workshops
- Infant/toddler play classes

- Early childhood educator training
- Additional enrichment classes for families with children birth–5

About the Program

The Baby Signs® Program is a research-proven early intervention program that helps babies and toddlers communicate before they can talk. Our Instructor Certification Program is a self-paced, distance-learning training that includes curricula, business tools, marketing resources, training videos, and music—everything you need to get started.

Benefits of Becoming a certified Baby Signs® Instructor

Make an impact: Help babies and families thrive through early communication.

Flexible schedule: Teach classes and workshops in community centers, child development programs, and children's health and educational agencies.

Comprehensive support: Gain access to training, ready-to-teach curricula, and ongoing instructor resources.

Professional growth: Join an international network of educators and child-development professionals.

Instructors are needed throughout the U.S. and Canada.
